Validation and Testing Tool (VTT) Release

Ginnie Mae has created new data requirements and technology for pool submission for its Pool Delivery Dataset (PDD) in order to adopt the MISMO standard for its single family at issuance pool delivery data. Users can test PDD submissions within the VTT in preparation for the cutover from GinnieNET to Ginnie Mae’s Single Family Pool Delivery Module (SFPDM). This will include validation of the Extensible Markup Language (XML) document structure (using the XML Schema Definition) and validation against the Ginnie Mae edits (Business Rules).

A live training will be held on **March 11th, 2021 at 2-3:30 PM (ET)** to provide an overview of the pool delivery modernization effort, introduction to the new MISMO compliant PDD, and demonstration training for Issuers and LOS Vendors on how to use the VTT to test the new dataset. The training will also guide Issuers and Vendors toward the appropriate resources and support available. For detailed registration instructions, please read the VTT Training Announcement posted on the [Training Announcements](#) page of GinnieMae.gov under the “Single Family Issuer Training” dropdown.

The VTT is available as of **February 22nd, 2021** via the Tools dropdown menu in the MyGinnieMae portal for users with the following functional roles:

Ginnie Mae is a wholly owned government corporation within the U.S. Department of Housing and Urban Development. Ginnie Mae pioneered the mortgage-backed security (MBS), guaranteeing the very first security in 1970. An MBS enables a mortgage lender to aggregate and sell mortgage loans as a security to investors. Ginnie Mae securities carry the full faith and credit of the United States Government, which means that, even in difficult times, an investment in Ginnie Mae is one of the safest an investor can make.
